Terms and Conditions—Livestock Equipment Incentives

Program Offer: The Program covers products purchased and/or services rendered on or after **January 1, 2010**. This program is only available for agricultural accounts. Maximum total rebate for all equipment included on this form is \$1200 per year.

Equipment Requirements

- **Livestock Waterers:** Waterers must be designed for year-round usage without freezing. Requires a maximum power input of 175 watts or less per opening/trough. Tank should be constructed of plastic/polyethylene with a minimum of 2 inches of tank insulation, and lid covers to qualify. There is no minimum power input for heaters (if any) as long as waterer is designed to operate in Iowa during the winter without the water freezing.
- **Heat Lamps:** Must be UL listed with a power input of 175 Watts or less. For replacement of 250 Watt heat lamps.
- **Single Crate Heating Pads:** Must be UL listed with a power input of 85 Watts or less.
- **Double Crate Heating Pads:** Must be UL listed with a power input of 170 Watts or less.
- **Heat Lamp or Pad Controller:** Heat pad controllers must allow control of heat output automatically with temperature sensors. Heat Lamp controllers must allow for variable intensity of heat lamps either through automatic sensor control or manual heat intensity adjustments. Controls that are integrated into heat pads do not qualify.

Application and Eligibility Process

The Cooperative reserves the right to verify sales transactions and to have reasonable access to the member's facility to inspect pre-existing equipment (if applicable) and the Energy-Efficient Measures installed under this Program, either prior to issuing incentives or at a later time.

An invoice is required and must include specific member information, including, but not limited to the type, size, make and model, serial number and date of purchase of Energy-Efficient Measures. An authorized representative of the Participating Member must sign, date, and submit the application with the invoice and the manufacturer's equipment performance sheets.

The Participating Member must ultimately own the equipment, either through an up-front purchase or at the end of a short-term lease. Equipment procured by members through another program offered by the Cooperative may not be eligible for a rebate through this Program.

Warranty Information:

The Cooperative makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacturing. The Cooperative does not guarantee that a certain level of energy or cost savings will result from the use of products covered by this program.

Limitation of Liability:

Participating Members agree that the Cooperative's liability, in connection with this Program, is limited to paying the Program Incentive specified (when all Terms and Conditions have been satisfied by the member). Under no circumstances shall the Cooperative be liable for any consequential or incidental damages resulting from participation in this Program. The Cooperative will not be responsible for any tax liability that may be imposed on the member as a result of the payment of Program Incentives.

Participating Member's Certification:

Participating Member certifies that he/she purchased and installed the equipment listed in their application at their defined location served by the Cooperative. Participating Member agrees that all information is true and that he/she has conformed to all of the program and equipment requirements listed in the application.

Program Changes/Termination:

While this rebate program will be in effect for an indefinite period, the Cooperative reserves the right to extend, modify (this includes incentive levels) or terminate this Program without prior or further notice. The member is responsible for checking with the Cooperative to determine whether the program has been changed or is still in effect.

Other Conditions

The Cooperative reserves the right to inspect installations before issuing the rebate. If the application does not comply with the Cooperative's rules and qualifications, the rebate amount may be adjusted.

Members must apply for rebates within 6 months of the purchase date (as shown on the member's invoice). Past eligibility, however, does not guarantee that equipment will meet criteria for current programs in effect
